COLD PROCESSED

Fresh, Raw & Unrefined

◆ Vegan ◆

A Trans-Fat-Free and Gluten-Free Product

For Best Quality Keep Refrigerated

Net Wt. 32oz.

INGREDIENT: Raw cold processed, organic almonds
OIL QUALITY - Rejuvenative Oils are created with a sincere and loving goal to epitomize, without cutting corners, the highest quality, freshest and healthiest, completely low-temperature processed oil possible. This fresh, raw, low-temperature processed oil is made in small batches with an industrial, low-volume, hightech oil press (to see picture of oil press go to rawoils.com). This low temperature process is better than low temperature pressed; which is likely to mean that the oil reached a warmer temperature at some stage in the production process. Higher yields can be achieved when oil is pressed at higher temperatures. Rejuvenative Foods is proud to let temperature be our guideline, our oil temp never exceeds 90°-115°F thereby maintaining minimal molecular change from the nut or seed. We intend this oil to exemplify the most healthful options that are known regarding healthy fats and oils. When we consume this oil in this fresh, natural form, we will NOT be consuming saturated or hydrogenated fats or trans fatty acids (also known as TFA's). This oil was never refined, processed or added to in any way. Furthermore refrigeration and 6-month freshness dating means life energy in this oil is retained. We simply put fresh, raw organic low temperature processed nuts and seeds into our oil press, then immediately put the resulting oil into jars and refrigerate. Shipped while fresh.

100% PURE because we clean our machines between batches
