Perishability and shipping details for these Raw Cultured Vegetables:

These fresh live cultured vegetables survive fine in transit. However, for maximum marketability and shelf life, please stock in your refrigerator at a good cold non-frozen temperature immediately upon receipt. The minimum expansion and longest shelf life occur when refrigerated to a cold temperature just above freezing, like 34° immediately upon receipt.

PLEASE REFRIGERATE THIS LIVE FOOD AS QUICKLY AS POSSIBLE!

Please do not allow to sit out at all. DO NOT FREEZE! Thanks
