What is this product? Kim-Chi has been a staple in the Korean diet for centuries. It is made from fresh, shredded, nonheated vegetables (see ingredients) which are put into stainless steel containers and left to culture for 5 to 7 days. No water or vinegar is added. These delicious, high-fiber, low-fat, nonheated, raw, organic, cultured vegetables are one of the richest sources of lactobacilli and enzy mes available. Lactobacilli are probiotic microflora, naturally implanted by mother's milk, normally present in a healthy human digestive tract. We make California-style, organic, Kim-Chi fresh year-round. Therefore from batch to batch, the taste, color and juiciness are different.

Serving Suggestions: Add delicious live zing to meals! This Kim-Chi mixes nicely with starches, proteins and vegetables. Serve with or on: rice cakes with fresh raw organic almond butter (or other nut and seed butters), tortillas, avocados, salads, seeds, nuts, grains, pizza, eggs, potatoes, meat, sandwiches & omelettes. **RECOMMENDED READING:** The Maker's Diet by Jordan Rubin, Body Ecology Diet by Donna Gates, Healing with Whole Foods by Paul Pitchford, Detoxification by Linda Page, PhD., Conscious Eating by Gabriel Cousens, MD.

ALSO AVAILABLE: Unheated, raw cultured vegetables—salt-free or with mineral-rich Celtic Sea Salt® including Vegi-Delite Zing Salad, Raw Sauerkraut and Salsas. Assorted flavors of fresh, raw, low-temperature ground nut and seed butters, including Raw Organic Almond and Brazil Nut Butters. Four varieties of Fresh Organic Chocolate Spreads
