

Fresh-Dated, RAW Refrigerated Nut & Seed Butters

★ More retained life energy for your benefit because: unheated, not-roasted, vitamins and minerals are retained because of immediate refrigeration; assured freshness because of a 6 or 9-month “best if sold-by” date; we monitor temperature during grinding so the heat friction doesn’t cook our nuts and seeds.

★ Superior quality, money-back guarantee (see website).

If craving fried foods, eat these for healthful essential fatty acids (EFAs) instead of fries or chips which have unhealthy trans fatty acids (TFAs).

Low Temp Ground! Gluten-free GMO-free 100% Vegan
(except honey in Ambrosia and Halvah)

All Organic Products Are
100% Organic!

100% PURE!

Free of other nut or seed residue because all of our machines are cleaned between batches.
