

INGREDIENTS: Filtered water, cucumbers*, garlic*, health salt, caraway seeds*, dill*, hot peppers*. *Organic

REJUVENATIVE FOODS PICKLES are handcrafted, high-fiber fresh cultured cucumbers providing our bodies with a rich, flavorful source of enzymes and lactobacilli (a microflora we naturally receive from mother's milk as infants that enhances our digestion and overall health). While pickles and other cultured vegetables have historically been enjoyed as invigorative food around the world, most other commercially available pickles are heat-processed, eliminating life-enhancing enzymes and microflora. These raw, freshly-made pickles are vinegar-free. **TO PROLONG QUALITY:** Keep as cold as possible (without freezing). **SERVING SUGGESTIONS:** Slice thin or thick. Eat as condiment to enhance all foods with delicious, live zing. Serve with fresh raw organic almond butter (or other nut and seed butters or mixtures), tortillas, sushi, raw food rolls & burritos, avocados, vegetables, salads, seeds, nuts, grains & rice, pizza, eggs & omelettes, potatoes, meat, sandwiches, and rice cakes.
