Low-Temp Ground!

Fresh-Dated, RAW, Refrigerated Nut & Seed But- Retained Life Energy, Flavor, Vitamins and Minerals! EFA's

Fresh-dated, raw, refrigerated Nut and Seed Butters are special because they're unheated (not roasted) and still have life energy, vitamins and minerals that are further retained as a result of immediate refrigeration and assured freshness that you know of by our 9 month "best if sold before" date. Ask for Rejuvenative Foods Nut and Seed Butters by name as you do cold processed oil. An important aspect of retention of life energy is: We monitor temperature during grinding so that heat friction doesn't cook our nuts and seeds.
